

Job Title: Boiler Installer (Propane & Heating Oil)

Position Overview:

We are seeking a skilled and reliable **Boiler Installer** with experience working with **propane and heating oil systems**. The ideal candidate will be responsible for installing, maintaining, and troubleshooting residential and/or commercial boiler systems while ensuring safety, efficiency, and top-quality workmanship.

Key Responsibilities:

- Install, service, and repair **propane and heating oil boilers** according to industry standards and local codes
 - Perform system diagnostics, testing, and adjustments to ensure optimal performance
 - Complete pipefitting, venting, and fuel line connections accurately and safely
 - Conduct system startups, test operations, and verify proper function
 - Provide clear communication to customers regarding work performed and system usage
 - Maintain accurate records of work orders, parts used, and service reports
 - Follow all safety regulations and company protocols
 - Participate in on-call rotations (if applicable) and respond to emergency service needs (optional based on availability)
 - Collaborate with team members and supervisors to ensure efficient workflow
-

Qualifications:

- Experience with **boiler installation** (required)
 - Knowledge of **propane and heating oil heating systems**
 - Relevant licenses or certifications (Gas/Propane, Oil Burner Tech, etc., depending on region)
 - Strong mechanical aptitude and troubleshooting skills
 - Ability to work independently and as part of a team
 - Valid driver's license and clean driving record
 - Strong customer-service and communication skills
-

What We Offer:

- **Competitive salary** based on experience
- **Comprehensive benefits package**
- **Overtime opportunities available**
- Steady, year-round work
- Supportive work environment with opportunities for growth

If you are looking to join a hardworking, safety-focused team and make a direct impact on the comfort and energy needs of our customers, we encourage you to apply today.
